ON NOVEMBER 5

It's Made Sense FOR MORE THAN HALF ILLINOIS COUNTIES

For years, the only way to improve school facilities in Illinois was to fund them with property taxes. While people want good schools, they also want property tax relief. The answer to this dilemma is the County School Facilities Sales Tax, which can only be used to fund school facility improvements, school resources officers or mental health professionals.

The more you know about this proposal the more it makes sense that voters in more than half of Illinois counties have passed this proposal. As a result they are benefiting from improved schools and property tax relief.

It Really Makes Sense FOR EFFINGHAM COUNTY

Because Effingham is on the crossroads of two major interstate highways, well over half the revenue generated by the one-cent sales tax for school facilities is paid by those who shop, but don't live, in our County. Every time a truck fills up with diesel, or a traveler visits one of our restaurants, they will help pay for quality schools in our County.

Yes for Schools — YES FOR PROPERTY TAX RELIEF

Let's join the other counties that are enjoying better schools and property tax relief. It is a better way to fund our schools and provide the facilities our kids need and deserve.

BETTER SCHOOLS AND PROPERTY TAX RELIEF
VOTE YES FOR A *Better Way* ON NOVEMBER 5

Paid for by Citizens for Effingham County Schools Facility Sales Tax.
